Transfers of securities to The Royal Bank of Scotland plc pursuant to the Dutch Scheme

On 6 February 2010, ABN AMRO Bank N.V. (registered with the Dutch Chamber of Commerce under number 33002587) changed its name to The Royal Bank of Scotland N.V. („**RBS N.V.**“) and on 1 April 2010 ABN AMRO Holding N.V. changed its name to RBS Holdings N.V.

On 26 March 2012, the Boards of The Royal Bank of Scotland Group plc, The Royal Bank of Scotland plc (with its registered office at 36 St Andrew Square, Edinburgh, Scotland) („**RBS plc**“), RBS Holdings N.V., RBS N.V. and RBS II B.V. announced that (1) RBS N.V. (as the demerging company) and RBS II B.V. (as the acquiring company) had filed a proposal with the Dutch Trade Register for a legal demerger of a substantial part of the business conducted by RBS N.V. in the Netherlands as well as in certain EMEA branches of RBS N.V. by way of a Dutch statutory demerger (the „**Demerger**“), and (2) RBS plc and RBS II B.V. had made filings with Companies House in the UK and the Dutch Trade Register respectively for, following the Demerger, a proposed cross-border merger of RBS II B.V. into RBS plc (the „**Merger**“, and together with the Demerger, the „**Dutch Scheme**“). The Demerger took effect at 00:00hrs (Central European Summer Time) on 10 September 2012 and the Merger took effect at 00:01hrs (British Summer Time) on 10 September 2012 (the „**Effective Time**“).

From the Effective Time, RBS plc became the issuer of those securities originally issued by RBS N.V. which were transferred to RBS plc pursuant to the Dutch Scheme (unless the securities were exercised, redeemed or repurchased and cancelled prior to the Effective Time). For details of which securities RBS plc has become the issuer of from the Effective Time pursuant to the Dutch Scheme, investors should refer to (I) for securities issued prior to 23 March 2012, www.investors.rbs.com/RBS_NV, or (II) for securities issued from on or about 23 March 2012, the issue and/or offer documents (if such issue and/or offer documents indicate that RBS plc was expected to become the issuer of the securities as a result of the Dutch Scheme, then (subject as set out above) RBS plc has become the issuer).

Under the Dutch Scheme, certain agreements relating to the transferring securities to which RBS N.V. was a party were also transferred to RBS plc (in full or to the extent connected with the relevant transferring securities), on the terms and subject to the exceptions described in the Demerger proposal.

In conjunction with the implementation of the Dutch Scheme, RBS plc has offered certain irrevocable undertakings to holders of the transferred securities, and counterparties to the transferring agreements, pursuant to a Deed of Irrevocable Offer executed by it and dated 25 March 2012 („**Deed of Irrevocable Offer**“). To view a copy of the Deed of Irrevocable Offer, and for further details of the Dutch Scheme generally (including in relation to the Demerger and Merger proposals), investors and counterparties should refer to www.investors.rbs.com/RBS_NV.

ABN AMRO Bank N.V. (the “Issuer”) proposes to issue eighteen tranches of Open-End Index Certificates on 27 December 2001. Each tranche of the Index Certificates shall be referred to as the “Certificates”, and each individual certificate, a “Certificate”. References to the “Index” (and together the “Indices”) mean the underlying index of each Certificate as described above.

Each Certificate entitles the Certificateholder (as defined herein) upon exercise to receive from the Issuer payment of the Settlement Amount (as defined herein) on the Settlement Date (as defined herein), subject to the Issuer's right to terminate the Certificates (as described herein). The Certificates will bear no interest.

Application has been made to list the Certificates on the Luxembourg Stock Exchange.

The Certificates will be represented by a global certificate (the “Global Certificate”), which will be deposited with Clearstream Banking AG (“Clearstream, Frankfurt”) on or about 27 December 2001. The Certificates have been accepted for settlement through Clearstream AG, Frankfurt, (“Clearstream, Frankfurt”), Euroclear Bank SA, (“Euroclear”) and Clearstream Banking, S.A. (“Clearstream, Luxembourg”), collectively the “Clearing Systems” and each a “Clearing System”.

The purchase and transfer of the Certificates may be effected in minimum numbers of 1 Certificate.

The Issuer will issue the Certificates to the Lead Manager on the Issue Date. Certificates not sold by the Lead Manager will be held by the Lead Manager or its affiliates and may be retained or may be sold by the Lead Manager from time to time in such amounts, to such purchasers and at such prices as the Lead Manager or such affiliate shall determine. The Issuer and its affiliates are entitled, at any time before the exercise of all of the Certificates or the Early Termination Date as the case may be, to purchase or sell Certificates in the open market or through private transactions.

The Certificates are derivative financial instruments linked to the Indices. Prospective investors are warned that the price of the Certificates may fall in value as rapidly as it may rise and holders may sustain a total loss of their investment. Prospective investors should be experienced with respect to transactions in equity securities and in securities with a value derived from underlying equity securities. Prospective investors should understand the risks of transactions involving these Certificates and should reach an investment decision only after careful consideration, with their advisers, of the suitability of investing in these Certificates in light of their particular financial circumstances and their particular investment considerations (see “Risk Factors”).

Prospective investors are warned that if, in respect to the relevant Index the Index Sponsor determines that no shares satisfy its criteria for such Index as being suitable for inclusion in such index, the Issuer will immediately terminate the Certificates. Then the Certificateholders will be entitled to the fair market value

of the Certificates immediately prior to such termination, less the costs to the Issuer of unwinding any related hedging arrangements.

In certain jurisdictions it may be uncertain as to how the return on the Certificates will be taxed. Prospective investors are cautioned to make themselves aware of the capital gains, income or other tax consequences of buying, holding or disposing of the Certificates in their own jurisdiction of tax residence prior to purchasing the Certificates (see “Tax Profile”).

The Certificates constitute general unsecured contractual obligations of the Issuer and of no other person. Any person who purchases the Certificates is relying upon the creditworthiness of the Issuer and has no rights under the Certificates against any other person.

The Issuer’s senior long-term debt rating is: Moody’s Aa2 and Standard & Poor’s AA.

Neither the delivery of this Prospectus, nor the issue of the Certificates, nor any sale thereof shall, in any circumstances, create any implication that there has been no change in the affairs of the Issuer since the date hereof.

This Prospectus (i) is not intended to provide the basis of any credit or other evaluation and (ii) should not be considered as a recommendation by the Issuer that any recipient of this Prospectus should purchase the Certificates. Potential investors are advised that this investment is not risk free and should be aware that they might receive an amount which might be considerably lower than their initial investment (see "Risk Factors"). Potential investors are also advised to make their own inquiries regarding this investment and should consult their own professional advisers.

The Certificates are derivative financial instruments linked to their respective indices and, accordingly, the Settlement Amount and/or the Early Termination Amount may be affected by, *inter alia*, the level of the relevant Index. Prospective purchasers should make their own independent evaluation of the risks associated with an investment in the Certificates.

In connection with this issue, the Issuer may over-allot or effect transactions which stabilise or maintain the market price of the Certificates at a level which might not otherwise prevail. Such stabilisation, if commenced, may be discontinued at any time and will in any event be discontinued 30 days after the Issue Date. Such stabilising shall be in compliance with all relevant laws and regulations.

DOCUMENTS INCORPORATED BY REFERENCE

The Issuer incorporates by reference into this Prospectus (i) the Annual Reports for the last three financial years and any unaudited consolidated interim statements issued in respect of ABN AMRO Holding N.V. (each of which incorporates the financial statements of the Issuer) (in English); and, (ii) the articles of association of the Issuer.

The Issuer will provide, without charge, to each person to whom a copy of this Prospectus has been delivered, upon the oral or written request of such person, a copy of any or all of the documents which are incorporated herein by reference. Written or oral requests for such documents should be directed to the Issuer at its registered office set out at the end of this Prospectus. Such documents will also be available free of charge upon request at the offices of the Fiscal Agent, Listing Agent and Paying Agents.

RISK FACTORS

An investment in the Certificates entails significant risks not associated with similar investments in a conventional debt and equity security, including the following:

The Certificates entitle the Certificateholder to receive, upon exercise of the Certificates by the Certificateholders or Early Termination by the Issuer, the Settlement Amount or the Early Termination Amount from the Issuer. Investors are therefore at risk that the level of the Index may cause the Settlement Amount or the Early Termination Amount to be less than the amount paid for the Certificates. Accordingly, this investment bears similar market risk to a direct equity investment and investors are cautioned to take advice accordingly.

There can be no assurance as to how the Certificates will trade in the secondary market or whether such market will be liquid or illiquid. Application has been made to list the Certificates on the Luxembourg Stock Exchange. No assurance can be given that there will be a market for the Certificates. If the Certificates are not traded on any Certificates exchange, pricing information for the Certificates may be more difficult to obtain, and the liquidity and market prices of the Certificates may be adversely affected.

The market value for the Certificates will be affected by a number of factors independent of the creditworthiness of the Issuer and the level of the Index, including, but not limited to market interest, exchange rates and yield rates. In addition, the level of the Index depends on a number of interrelated factors, including economic, financial and political events in Europe and elsewhere, including factors affecting capital markets generally and the Relevant Exchange. The price at which a Certificateholder will be able to sell Certificates prior to exercise may be substantially below the value of the Certificates at the Issue Date if, at such time, the level of the Index is below, equal to or not sufficiently above the level of the Index at the date of this Prospectus. The historical levels of the Index should not be taken as an indication of the Index's future performance during the term of the Certificates.

Potential conflicts of interest may exist between the Calculation Agent and Certificateholders, including with respect to certain determinations and judgments that the Calculation Agent may make pursuant to the Conditions that may influence the amount receivable upon redemption of the Certificates.

Prospective investors who consider purchasing the Certificates should be aware that these Certificates are Open-End Certificates. This means that settlement of the Certificates depends on the Certificateholder exercising his right to receive the Settlement Amount, or the Issuer terminating the Certificates.

Prospective investors who consider purchasing the Certificates should reach an investment decision only after carefully considering the suitability of the Certificates in light of their particular circumstances.

The Global Certificate shall not be exchangeable for definitive certificates unless Clearstream, Frankfurt, close for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business and the Certificateholder is unable to settle its Certificates through any non-affected Clearing System.

Interests in the Global Certificate will be transferable in accordance with the rules and procedures for the time being of the Clearing Systems and all transactions in (including transfers of) the Certificates, in the open market or otherwise, must be effected through an account at Clearstream Frankfurt, Clearstream, Luxembourg or Euroclear. Title to the Certificates passes upon registration of the transfer in the books of the Clearing Systems.

In the event that Certificates are issued in definitive form in the circumstances specified above, title to such definitive Certificates will pass by delivery. The Issuer and any Paying Agent may deem and treat the bearer of any Certificate as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes.

Transfers of the Certificates may be effected in minimum numbers of 1 Certificate.

3. Status of the Certificates

The Certificates constitute unsecured and unsubordinated obligations of the Issuer and rank *pari passu* without any preference among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer save for those preferred by mandatory provisions of law.

In the case of Certificates in definitive form, payments will be made upon surrender of Certificates at the specified office of any of the Paying Agents.

(c) *Payments subject to Fiscal Laws*

All payments are subject in all cases to any applicable fiscal or other laws and regulations and practices in force at the relevant time (including, without limitation, any relevant exchange control laws or regulations and the rules and proceedings of the Clearing Systems), but without prejudice to the provisions of Condition 9.

6. Exercise Procedure

(a) *Exercise*

The Certificates are exercisable on each Exercise Date prior to the Exercise Time, unless terminated as provided herein.

Certificates may only be exercised by delivery in writing, by tested telex confirmed in writing, or by any other means acceptable to the Fiscal Agent of a duly completed Exercise Notice to the Fiscal Agent and with a copy to a Paying Agent on or before the Exercise Time on the Exercise Date. The form of such notice shall be in the form as set out in the Agency Agreement or in such other form as the Fiscal Agent may specify. Copies of the Exercise Notice may be obtained from the Paying Agents and must be delivered to the Fiscal Agent and with a copy to a Paying Agent not later than the Exercise Time on the Exercise Date.

The Exercise Notice must:

- (i) specify the name, address, facsimile, telex, telephone and attention details of the Certificateholder;
- (ii) specify the number of Certificates being exercised;
- (iii) specify the number of the Certificateholder's account at a Clearing System to be credited with the Settlement Amount;
- (iv) include an irrevocable undertaking to pay any taxes and an instruction and authority to the Clearing System to deduct an amount in respect thereof from the Settlement Amount due to such Certificateholder or to debit, at any time on or after the Settlement Date, the specified account of the Certificateholder at the Clearing System with an amount in respect thereof and to pay such taxes to the extent of such amount or amounts;
- (v) certify that the Certificates are not being exercised by or on behalf of a U.S. person or person within the United States and Certificates are not beneficially owned by a U.S. person or a person within the United States and authorising such certificate to be produced in administrative or legal proceedings (all as more fully set out in the Exercise Notice);
- (vi) authorise the production of the certification referred to in Condition 6(a)(v) in any applicable administrative or legal proceedings.

An Exercise Notice which has not been received by the Exercise Time on the Exercise Date to which it applies, shall be void and no Certificates in respect to such Exercise Notice and the applicable Exercise Date shall be exercised. The Exercise Notice shall be void if the number of Certificates specified in the Exercise Notice exceeds, on the Exercise Date, the number of Certificates held in the account specified therein.

b) *Determinations*

Any determinations as to whether the telex or notice referred to in Condition 6(a) is duly completed and in proper form shall be made by the Fiscal Agent and shall be conclusive and binding on the Issuer and the relevant Certificateholder. Any such telex or notice determined to be incomplete or not in proper form shall be null and void.

If such telex or notice is subsequently corrected to the satisfaction of the Fiscal Agent it shall be deemed to be a new notice delivered at the time such corrected telex or notice is delivered to the Issuer.

c) *Effect of Exercise Notice*

Delivery of a telex or notice as referred to in Condition 6(a) shall constitute an irrevocable election and undertaking by the relevant Certificateholder to exercise the Certificates specified in it. After the delivery of such telex or notice, such exercising Certificateholder may not otherwise transfer such Certificates. Notwithstanding this, if a Certificateholder does so transfer or attempts so to transfer such Certificates, the Certificateholder will be liable to the Issuer for any losses, costs and expenses suffered or incurred by the Issuer including those suffered or incurred as a consequence of it having terminated any related hedging operations in reliance on the relevant telex or notice

and subsequently (i) entering into replacement hedging operations in respect of such Certificates or (ii) paying any amount on the subsequent exercise of such Certificates without having entered into any replacement hedging operations.

7. Early Termination

As of the Business Day that is three calendar years following the Issue Date, the Issuer has the option to terminate the Certificates, in whole but not in part, on any Exchange Business Day on giving not less than two calendar years' notice. Such notice will be given to the Clearing Systems and published in accordance with Condition 15 and shall specify the Early Termination Date. In such event, each Certificate will entitle the Certificateholder to receive from the Issuer the Early Termination Amount on the Early Termination Payment Date, unless previously exercised.

8. Determination of the Settlement Amount

(a) Calculation Agent

The Calculation Agent shall not act as an agent for the Certificateholders but shall be the agent of the Issuer and all calculations and determinations hereunder shall (save in the case of manifest error) be final and binding on the Issuer, the Paying Agents and the Certificateholders. All calculation functions required of the Calculation Agent under these terms and conditions may be delegated to such person as the Calculation Agent, in its absolute discretion, may decide.

(b) Responsibility

Neither the Issuer, the Paying Agents nor the Calculation Agent shall have any responsibility for any errors or omissions in the calculation and dissemination of any variables published by third parties and used in any calculation made pursuant to these terms and conditions.

9. Taxation

All payments in respect of the Certificates by the Issuer will be made without withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of The Netherlands or the United Kingdom or any political subdivision or any authority thereof or therein having power to tax, unless such withholding or deduction is required by law.

In such event, the Issuer will make the required withholding or deduction of such taxes, duties, assessments or governmental charges for the account of the holders of the Certificates and shall not pay any additional amounts to the holders of the Certificates.

10. Market Disruption

(a) Rights on a Market Disruption Event

If, in the opinion of the Calculation Agent, a Market Disruption Event has occurred and is continuing on the Valuation Date or the Early Termination Date, then the Valuation Date or the Early Termination Date, as the case may be, shall be the first succeeding Exchange Business Day on which there is no Market Disruption Event, unless there is a Market Disruption Event on each of the two Exchange Business Days immediately following the original date that, but for the Market Disruption Event, would have been the Valuation Date or Early Termination Date. In that case, (i) that second Exchange Business Day shall be deemed to be the Valuation Date or the Early Termination Date, as the case may be, notwithstanding the Market Disruption Event, and (ii) the Calculation Agent shall determine the official closing level of the Index on that second Exchange Business Day in accordance with the formula for and method of calculating the Index last in effect prior to the commencement of the Market Disruption Event using the exchange traded price (or, if trading in the relevant security has been materially suspended or materially limited, its good faith estimate of the exchange traded price that would have prevailed but for the suspension or limitation) as of the Valuation Time on that second Exchange Business Day of each security comprised in the Index.

(b) Meaning of "Market Disruption Event"

"Market Disruption Event" means the occurrence or existence on any Exchange Business Day during the one-half hour period that ends at the Valuation Time of any suspension of or limitation imposed on trading (by reason of movements in price exceeding limits permitted by a Relevant Exchange or otherwise), (a) on the Relevant Exchange in securities that comprise 20 per cent or more of the level of the relevant Index or (b) in options contracts or futures contracts on the Index on any Related Exchange.

For the purpose of determining whether a Market Disruption Event exists at any time, if trading in a security included in the Index is materially suspended or materially limited at that time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security relative to (y) the overall level of the Index, in each case immediately before that suspension or limitation.

The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Issuer (if not also the Calculation Agent) and the Clearing Systems of the existence or occurrence of a Market Disruption Event on any day that but for the occurrence or existence of a Market Disruption Event would have been the Valuation Date or the Early Termination Date, as the case may be.

11. Adjustments

(a) General Adjustment Events

(i) If the Index is not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent; or if the Index is replaced by a successor index using, in the determination of the Calculation Agent, the same or substantially similar formula for and method of calculation as used in the calculation of the Index, then that index will be deemed to be the Index so calculated and announced by that successor sponsor or that successor index, as the case may be.

(ii) If on or prior to the Valuation Date or the Early Termination Date, the Index Sponsor (1) makes a material change in the formula for or method of calculating the Index or in any other way materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent stock and capitalisation and other routine events); (2) fails to calculate and announce the Index or (3) ceases to calculate the Index, the Calculation Agent may elect (a) that such Index will be replaced by an index that is in the opinion of the Calculation Agent substantially similar to the Index; or (b) to calculate the relevant official closing price of the Index, using in lieu of a published level for the Index, the level for the Index as at the Valuation Date or the Early Termination Date as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating the Index last in effect prior to that change or failure, but using only those securities that comprise the Index immediately prior to that change or failure (not including those securities that have since ceased to be listed on the Relevant Exchange); or (c) in the case of a material modification of the Index only, to deem such modified Index to be the Index so calculated and announced; or (d) to terminate the Certificates by giving notice in accordance with Condition 15, notwithstanding the provisions of Condition 7.

(b) Other Adjustments

The Issuer reserves the right to make adjustments or to distribute to the Certificateholders any rights in connection with the Certificates as it reasonably believes are appropriate in circumstances where an event or events occur which the Issuer believes (in its absolute discretion and notwithstanding any adjustments previously made to the Certificates) should in the context of the issue of Certificates and its obligations hereunder, give rise to such adjustment or distribution, provided that such adjustment is considered by the Calculation Agent to be appropriate generally (without considering the individual circumstances of any Securityholder or the tax or other consequences of such adjustment in any particular jurisdiction) or is required to take account of provisions of the laws of the relevant jurisdiction or the practices of the Relevant Exchange.

(c) Notice of Adjustments

The Calculation Agent shall give notice to Certificateholders of any adjustment in accordance with Condition 15. All calculations and adjustments made by the Calculation Agent are definitive and binding on the Certificateholders, except in the case of manifest error. The Issuer cannot be held liable for any errors, mistakes or omissions in the calculation, distribution and publication of the Index or in the level of the Index.

12. Prescription

The Certificates will become void unless presented for payment within a period of five years after the Relevant Date (as defined in Condition 9) therefor.

13. Purchase by Issuer

The Issuer or any of its subsidiaries may at any time purchase Certificates at any price in the open market or by tender or private treaty. Any Certificates so purchased may be held, resold or cancelled.

14. Agents

(a) Paying Agents

The Issuer is entitled to vary or terminate the appointment of any Paying Agent and/or appoint additional or other Paying Agents and/or approve any change in the specified office through which any Paying Agent or exchange agent acts, provided that:

- (ii) there will at all times be a Fiscal Agent which shall act as principal paying agent, paying and exchange agent in relation to the Certificates.

Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 nor more than 45 days' prior notice thereof shall have been given to the Certificateholders in accordance with Condition 15.

(b) Calculation Agent

The Issuer reserves the right to vary or terminate the appointment of the Calculation Agent provided that it shall at all times maintain a Calculation Agent. The Calculation Agent (whether it be the Issuer or a third party), acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Certificateholders. All calculations and determinations in respect of the Certificates made by the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Certificateholders.
